The four volume set consists of a collection of materials - introduction to editions of Marx's works, articles, book excerpts, reviews, letters - on Marx's Das Kapital in English, French and German written between 1867, that is the year of publication of Volume 1, and 1914, when it may be said that critical appraisal of Marx's work was completed and Marx was undeniably recognized as a member of the economists', and more generally the social scientists', community. -- The material is organized under four main headings: I Debate on the First Volume of Das Kapital; II The Second Volume of Das Kapital and the Debate on the Third Volume; III Critical Appraisal of MARx's Work, 1899-1914. I; IV Critical Appraisals of Marx's Work, 1899-1914. II. Soucieuse de son confort et de son indépendance, Deola vit à Londres, tenant ainsi à distance son pays, le Nigeria, et sa famille

installée à Lagos. Marquée par une jeunesse ballottée entre deux mondes, elle manoeuvre, dans ses relations professionnelles et amicales, pour éviter de s'exposer, de cristalliser sa différence. Sous ses dehors impassibles, rires, indignations, espoirs, affections et doutes se bousculent en une émouvante effervescence. De retour au Nigeria dans le cadre d'une mission, elle retrouve sa famille, qui commémore le décès de son père, et elle cède à la tentation d'une aventure amoureuse. Cette rencontre, véritable grain de sable dans la vie bien rodée de Deola, l'amène à se libérer du carcan qu'elle s'était imposé, à dépasser son insidieuse frustration pour s'engager dans une voie risquée, mais choisie. Avec une sobriété ciselée, une tenue remarquable, un humour incisif, une vraie tendresse pour ses personnages et pour les villes de Lagos et de Londres, Sefi Atta explore les questions de l'exil, de la famille, de l'amitié, de la féminité, de l'altérité, restant au plus près du bruissement entêtant de la vie. Each half-year consists of two volumes, Partie médicale and Partie paramédicale. Shadows are holes in light. We see them all the time, and sometimes we notice them, but their part in our visual experience of the world is mysterious. In this book, an art historian draws on contemporary cognitive science, eighteenth-century theories of visual perception, and art history to discuss shadows and the visual knowledge they can offer. Vols. for 1955/56-63 include the 27th-30th official transactions of the Nordisk kirurgisk förening, 1955-61.
