Apples, Oranges and Lemons Dec 26 2020 When purchasing your
vehicle, you should probably expect to be lied to by everyone from the
sales department to the financial department. Apples, Oranges, and
Lemons is a one-of-a-kind, tell-all book about the automobile trade
that reveals inside secrets they don't want you to know. There is no
other book like it. It is written by the only person who could, or would.
Phillip James Grismer knows the automobile industry from the inside
out. He first apprenticed in a number of import auto shops, eventually
rising through the ranks and opening his own facility. Grismer draws
on his thirty-seven years of experience to expose how the industry

really works. He provides answers on how to deal with a "lemon" while offering advice on how to make the best buy before purchasing your vehicle. Discover how the valuation and appraisal process works and how the history of your vehicle affects you and your money. Grismer's conversational style makes the information accessible while offering personal insight on the process of vehicle manufacturing and servicing. Even the most casual reader will be enlightened and entertained by the inner workings of the automobile manufacturing, sales, and service industry. But most importantly, this handy reference guide empowers the consumer to make well-informed decisions about vehicles.
